## GPM PEAT MOSS

All plants—grass, trees, flowers and vegetables can only eat food in a thin solution. In other words they must drink it. To make your soil the proper texture to hold food in this thin solution, you should mix liberal quantities of GPM Peat Moss into the soil. Water then dissolves plant food and the sponge-like texture of GPM Peat Moss holds the solution in readiness for plant use. It will make your plants grow better; produce better flowers; have better color and grow larger.

### Large Bales

1-4 bales .....	\$ 3.90 ea.	\$ 5.75 ea.

	1-9 Each	10-29 Each	30 & up Each
CRATAEGUS requires proportionately larger balls than most other stock. We recommend the following:			
3-4' - 15" diam.			5-6' - 21" diam.
4-5' - 18" diam.			6-8' - 24" diam.
			8-10' - 27" diam.
CRATAEGUS arnoldiana - ARNOLD HAWTHORN - 20 ft.			
White flowers in May, bright crimson fruit.			
y 5-6'	\$4.25	\$4.15	\$4.00
y 6-8'	5.25	5.15	5.00
y 8-10'	7.00	6.80	6.50
CRATAEGUS coccinea - See Crataegus intricata.			
CRATAEGUS cordata - See Crataegus paenopyrum.			
CRATAEGUS calpodendron tomentosa - PEAR HAWTHORN.			
15 ft. Spreading small tree, gray bark, elongated red fruit.			
y 5-6'	4.25	4.15	4.00
y 6-8'	5.25	5.15	5.00
y 8-10'	7.00	6.80	6.50
z 10-12'	8.50	8.35	8.00
CRATAEGUS crusgalli - COCKSPUR THORN - 40 ft. May-June. Branches wide spreading. The red fruit often remains on the branches until spring. Glossy leaves assuming orange and scarlet colors in fall.			
z 4-5'	3.25	3.15	3.00
x 5-6'	4.25	4.15	4.00
x 6-8'	5.25	5.15	5.00
x 8-10'	7.00	6.80	6.50
x 10-12'	8.50	8.35	8.00
CRATAEGUS intricata (coccinea) - THICKET HAWTHORN - 20 ft. White flowers, red fruit.			
x 6-8'	5.25	5.15	5.00
x 8-10'	7.00	6.80	6.50
CRATAEGUS mollis - DOWNY HAWTHORN - 30 ft. April - May. One of the most decorative Hawthorns with large leaves. The showy fruits drop after ripening.			
y 5-6'	4.25	4.15	4.00
x 6-8'	5.25	5.15	5.00
x 8-10'	7.00	6.80	6.50
y 10-12'	8.50	8.35	8.00
CRATAEGUS monogyna - SINGLE SEED HAWTHORN - 30 ft. Similar in growth to Crataegus oxyacantha.			
x 4-5'	3.25	3.15	3.00
x 5-6'	4.25	4.15	4.00
x 6-8'	5.25	5.15	5.00
y 8-10'	7.00	6.80	6.50
CRATAEGUS oxyacantha - ENGLISH HAWTHORN - 18 ft. Scarlet fruit, strong spines, useful in creating an impenetrable hedge. An excellent ornament for lawn.			
z 3-4'	2.50		

	1-9 Each	10-29 Each	30 & up Each
<b>CRATAEGUS oxyacantha pauli - PAULS SCARLET THORN.</b>			
15 ft. A more profuse flowering type C. oxyacantha.			
z 6-8'	\$6.00		
<b>CRATAEGUS phaenopyrum (cordata) - WASHINGTON THORN.</b>			
30 ft. May - June. Beautiful fall coloring, clusters of small bright red berries. Upright habit of growth, fine for hedging.			
y 4-5'	3.25	3.15	3.00
x 5-6'	4.25	4.15	4.00
x 6-8'	5.25	5.15	5.00

- BEST REGARDS - #652.**  
The inside of petals is a brilliant shade of cardinal red with a deep yellow marking at the base of each. Vigorous grower and an excellent bloomer.
- COUNTESS VANDAL - #38.**  
Pointed buds opening to carmine, pink, buff and gold.
- CRIMSON GLORY - #105.**  
Perfectly formed deep crimson blooms. Prolific bloomer.
- ECLIPSE - #172.**  
Long, tapering buds open to brilliant golden yellow. Long stems.
- FANTASIA - #590.**  
An everblooming mass of bright golden yellow buds, opening into medium-sized blooms of exquisite form and color. Unique wild rose fragrance.
- KATHERINE T. MARSHALL - #607.**  
Coral pink buds opening to warm pink blooms. Highly praised in all parts of the country. Very hardy, vigorous, bushy and a constant bloomer.
- MARY MARGARET MC BRIDE - #537.**  
Pointed coral pink buds opening to deep pink blooms with a touch of yellow at the base of each petal.
- MIRANDY - #632.**  
Huge, double, deep red blooms with a rich fragrance. Vigorous and a constant, dependable bloomer.
- NOCTURNE - #713.**  
Longest, most perfectly formed deep redbuds of any red rose. Has been climbing steadily in public favor everywhere. Vigorous and a good bloomer.
- RUBIAYAT - #758.**  
Long, graceful buds in great profusion opening to a flashing crimson red. Old rose fragrance.

- SAN FERNANDO - #785.**  
Pointed, well-formed buds open to beautiful rich currant red blooms, borne on tall erect stems. Its exquisite perfume fills the whole garden.

**SAN GABRIEL - #860.**

Long pointed buds of glowing salmon with a heavy overlay of tangerine orange and fire red. Saffran yellow at the base of each petal. Tea fragrance.

**SAN LUIS REY - #861.**

Long pointed buds of guinea gold opening to perfect flowers of satiny texture deepening at the base to rich cadmium yellow. Tea scented.

**SHOW GIRL - #646.**

Perfectly formed, longest buds of any pink variety. Long stems on a strong vigorous bush that thrives in all sections of the country.

**TAFFETA - #716.**

Rich pastel pink, salmon and yellow buds on long stems. Profuse bloomer.

**YOURS TRULY - #697.**

Fully double flowers of glowing rose pink. Base of petals tinged with yellow. Very long stems. Exceptionally double. Delightful fragrance.

PATENTED CLIMBING ROSES

WHOLESALE PRICE.....	1-9	10-19	20-249	250 & up

The buds are lively red opening to shell-pink blooms with five dogwood-like petals. Very profuse bloomer all summer.

SUMMER SNOW - #416.

Most prolific white floribunda. Pure white blooms in large clusters.

WORLDS FAIR - #362.

Clusters of velvety, four inch, rich scarlet red, double blooms. One of ten best floribundas.

# ROSE GRADING

VIRGINIA SEASIDE ROSES are graded by the AAN standards. The following is an excerpt from the 1949 Edition of Horticultural Standards:

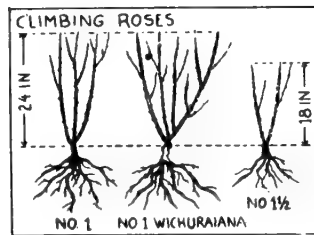

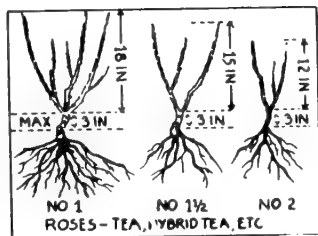

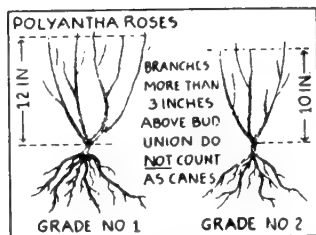

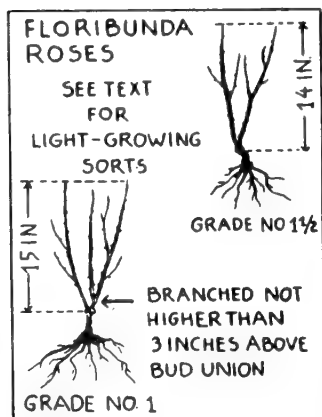

"All grades of Roses must have a well-developed root system and have proportionate weight and caliber according to grade and variety.

All No. 1 Grades and No. 1 1/2 Grades shall be tied 10 to a bundle and No. 2 grades, 20 to a bundle with 2 printed labels on each bundle and the Grade Specification on each bundle.

Grade No. 1 (Hybrid Teas) -- 3 or more strong canes, two of which are to be 18 inches and up, with the exception of a few of the light growing sorts, which are to have three or more canes, two of which are to be 16 inches and up, and one cane to be 18 inches and up, branched not higher than 3 inches above the bud union.

Grade No. 1 (Floribundas) -- 3 or more strong canes, 2 of which are to be 15 inches and up with the exception of a few light growing sorts which are to have 3 canes, 2 of which are to be 13 inches and up, branched not higher than 3 inches above the bud union.

Grade No. 1 (Climbers) -- 3 or more strong canes, 24 inches and up with the exception of Wichuriana and Wichuriana types. These are to have 4 strong canes each 24 inches and up, branched not higher than 3 inches above the bud union or crown."

# GUARANTEE AND TERMS OF SALE

All sales and contracts are made subject to crop loss or loss through natural causes over which we have no control. Our responsibility ceases when shipment has been delivered to carrier. If stock is not received in good condition, claims for adjustment or loss or damage is a matter between consignee and the carrier.

Terms of sale are 2% discount for cash in 10 days from date of invoice -- Net in 30 days.

Packing and boxing at cost.

# EXTEND THE SPRING PLANTING SEASON WITH

## **Plantect** PROTECTS PLANTS

Containing Goodrite VL-600 produced by  
B. F. Goodrich Chemical Co.

### An Effective Aid In Transplanting

Retards evaporation from leaves while transplants are establishing new roots. Minimizes wilting and resulting setback to plant growth.

- Simple and convenient to use
- Will not harm plant tissues
- Long-lasting, forms transparent film
- Reduces water loss through foliage
- Can be used as a spray or a dip
- Permits transplanting any time of year
- Actually enhances appearance
- Almost invisible
- Has no toxic effect

**WHEN TO APPLY** Apply any time when it will dry rapidly and form a transparent coating. Treated plants are dry when the coating becomes clear. PLANTECT is best applied when temperature is 70 degrees or above. Drying

can be hastened with the use of a fan or artificial heat when treatment is done indoors.

**HOW TO APPLY**—PLANTECT can be sprayed or dipped, whichever is most convenient. Use any type of pressure sprayer. Care should be taken to get complete coverage.

For transplanting finished evergreens—Use one part PLANTECT to 4 parts water. For transplanting deciduous shrubs and trees—One part PLANTECT to 6 parts water. For rooted cuttings from greenhouse and beds—One part PLANTECT to 8 parts water. For deciduous stock for storage—One part PLANTECT to 1 or 2 parts water.

**Caution** Allow plants to dry thoroughly before storing in moist storages. Also, do not allow PLANTECT solution to remain in sprayer over night. Clean sprayer thoroughly after using by merely rinsing parts with hot water.

PLANTECT is shipped in glass gallon jugs carefully packed for mail or express. Weight packed 17½ lbs. Price F. O. B. Monroe \$6.50 per gallon. Write for special quotations on larger quantities.

**Ilgenfritz Nurseries, Inc.    Monroe, Michigan**
